Dear Jim, would you please ask Mike to check standard military directories and the Diplomatic "Blue Book" on Cushman, with an eye toward reconstructing his career, which he omits from his Who's Who? Check assignment as some kind of attache to China circa 1940 esp. I am told there is or was something like an Army & Navy Register in which the career of each com issioned officer was tabbed. Today that would be something! But in this earlier day there were not that many. Some of my newer info, which I'll show you, makes me more interested. ...Don't let me forget to pay you for the CQ WG. If they turn out updates, the White's will want, thanks. HW 10/27/73
